## PROFILE

### Data Engineering Student | Aspiring ML Engineer

Detail-oriented Computer Science undergraduate specializing in the architecture of reliable, maintainable data pipelines. Expert at transforming messy, raw data into high-integrity, analysis-ready datasets. I bridge the gap between data engineering and machine learning by building automated systems that ensure ML models are fueled by high-quality data.

## EDUCATION

### Student at Faculty Of Computer and Data Science

Third Year Student with GPA 3.8

2023

Alexandria, Egypt

## SKILLS

### Technical Skills

- **Languages:** Python (Pandas, Numpy, matplotlib, seaborn), SQL (PostgreSQL, MySQL, SQLserver), Java , C++, Javascript
- **Deep Learning:** TensorFlow, Keras, CNNs
- **Web Frameworks:** Django, Flask, Nodejs
- **Version Control:** Git, GitHub
- Object oriented programming (OOP)
- Data Structures & Algorithms
- Problem Solving

### Soft Skills

- communication Skills
- Microsoft office 365
- Team Work
- Search Skills

## CERTIFICATES

### Data Engineering in SQL

- Datacamp

### Data Engineering in Snowflake

- Datacamp

### ECPC Egyptian Collegiate

### Programming Contest 2025

### Data Analyst in python

- Datacamp

### AWS Certificate Cloud

### Foundation

- Amazon Web Services (AWS)

### ITI Android Mobile

### Development with kotlin

- Information technology institute (ITI)

## PROJECTS

### Data Warehouse

2026

skills: PostgreSQL, Data Modeling, ETL, Star Schema Design

- A scalable Data Warehouse project built with a layered Medallion Architecture (Bronze, Silver, Gold), implementing a full ETL pipeline, data modeling, testing, and data catalog integration for analytical reporting and business insights.

### Virtual Hand-Draw Application

2025

skills: openCV , Mediapipe, python

- The app allows you to draw in real time by simply moving your hands in front of a webcam. No mouse, no pen — just gestures.

### Expense Tracker

2025

skills: Flask, Bootstrap 5, SQLite

- A simple Expense Tracker Web App built with flask that allows users to track their daily expenses, view spending insights, and manage budgets.

### Tap2Eat Mobile Application

2025

skills: Android, Kotlin

- Delicious FoodApp — Explore a wide variety of mouth-watering dishes with detailed descriptions, ratings, and images. Easily browse categories, add your favorites to the cart, and enjoy a smooth checkout experience.

skills: *python networkx*

- Automates the creation of a university/college exam schedule based on student course enrollment data. It aims to minimize conflicts by ensuring that students enrolled in multiple courses do not have exams scheduled at the same time. It also considers room capacities when assigning exams.

EXPERIENCE

---

Digital Egypt Pioneers Initiative - DEPI 2026

- Scholarship in Machine Learning track (6 months)

ITI track Mobile development 2025

- Summer training (120 hours)

ECPC (Egyptian Collegiate Programming Contest) 2025

- Competitor with rank 153th place

Sidi Kerir petrochemicals (SIDPIC) 2024

- Trainee at IT department (2 weeks)
